

To Whom It May Concern:

These two discussion agreements are my intellectual property and remain so. I do explicitly forbid the sale or for profit distribution of these documents. In giving them to you I grant you the right to use, photocopy, alter wording, and distribute to other landowners. I grant you these rights for free and I encourage that if you make changes to these let me know because I have created these documents as living documents and any improvement can be used to help us all.

Glenn R. Norman
